FAIRTRADE CANADA AT A GLANCE

What Fairtrade does

Fairtrade is a product certification that stands for fairer conditions and better prices for the people in developing countries who grow and make our products; whether it's the coffee we drink, the cocoa in our chocolate, or the cotton in our t-shirts.

But Fairtrade is about more than just prices. By getting Fairtrade certified, farmers and workers in developing regions build connections with traders and consumers around the world, invest in their communities and businesses, and are empowered to take an active role in determining their futures.
